To Whom it May Concern

**Dr. Cornelius Hulsman**

As we were thinking of the solution for our grade nine students of the Eritrean refugee school, Dr. Hulsman gave us a solution. At that time they were planning to set a center and our refugee children. Thanks be to Dr. Hulsman that our students found a place to realize their dreams.

Our collaboration in the field of refugee education service is entering the second year and we hope to continue offering the marginalized of our society the basic education they so much desire.

As the center functions thanks to the donors, I recommend that he be helped to meet the required documentation to be presented to the donors as part of the funding requirements.

Yours Sincerely

Fr. John Korir ( Parish Priest)
