

Rev. Konrad Knolle

Head of the German Evangelical Church in Egypt and chairman of the German Evangelical School in Cairo until June 2005.

Mr. Hulsman's contribution to the understanding of inter-cultural and inter-religious matters in the Arab World is outstanding. His report is a reliable and most important source of information concerning ongoing discourses in Arab societies. It documents issues debated in public life on a high intellectual and theoretical level. It furthermore follows developments concerning political and social events which are important to the formation of public opinion in both Arab and so-called Western societies.
